## 2 Cite Style

Here are the ways to cite people.

### 2.1 Subject Form

This form use author as subject.

- Chaklam [3] asks master and Ph.D. students to publish 1 paper and 3 papers repectivly.
- Akaradet and Mehul [1] – this is how the 2 authors look like
- Amp et al. [2] – this is how the 3 authors look like
- Vaswani et al. [4] – many many authors

### 2.2 Indirect form

You probably see this more often. It used for citing sentence (where do you know this).

- For the master students, 1 paper. For Ph.D. students, 3 papers. OK? [3]

### 2.3 Multiple Citation

When one statement is mentioned by many papers.

- Ph.D. must publish 3 papers to graduate [3, 1, 2].
- Akaradet and Mehul [1] and Amp et al. [2] mentioned that brainlab is where they work everyday.
